

We recommend you purchase students' stationery in time for the start of school in Term 1 as students will begin using their stationery on the first day of school.

Where to purchase stationery

Stationery can be ordered from the commercial outlet of your choice. However, from January each year, Paper Plus Wānaka offers an [online ordering option](#) (school name – Mount Aspiring College) so you can purchase stationery and either collect your order from the store or have it delivered to your home.

Additional materials

Please check the college's [course guide](#) for any additional materials students may need for selected subjects. These materials are provided in class, and you will be invoiced for them. Teachers may ask parents of homeroom students to purchase additional stationery items if needed.

Digital devices (BYOD)

We expect all students to bring an appropriate device to school and use it to support their learning. You can [read more about recommended devices](#) on our website.
